7 REPORTS

7.11 FINANCIAL REPORT FOR THE 9 MONTHS ENDING 31 MARCH 2021

1. PURPOSE

To present the financial results for the financial year to 31 March 2021.

2. SIGNIFICANCE

The matters for decision in this report are not considered to be of significance under the Significance and Engagement Policy.

3. BACKGROUND

Detailed quarterly reports are provided to the Council at its Ordinary meetings that coincide with the end of the financial period and reflect the output of internal management reporting. This report covers the nine months to 31 March 2021.

4. FINANCIAL STATEMENTS

A full set of financial statements for the year to 31 March 2021 are in **Attachment 1**.

They include:

- statement of financial performance by type of income and expenditure
- statement of financial performance by activity
- statement of financial position
- statement of cashflows

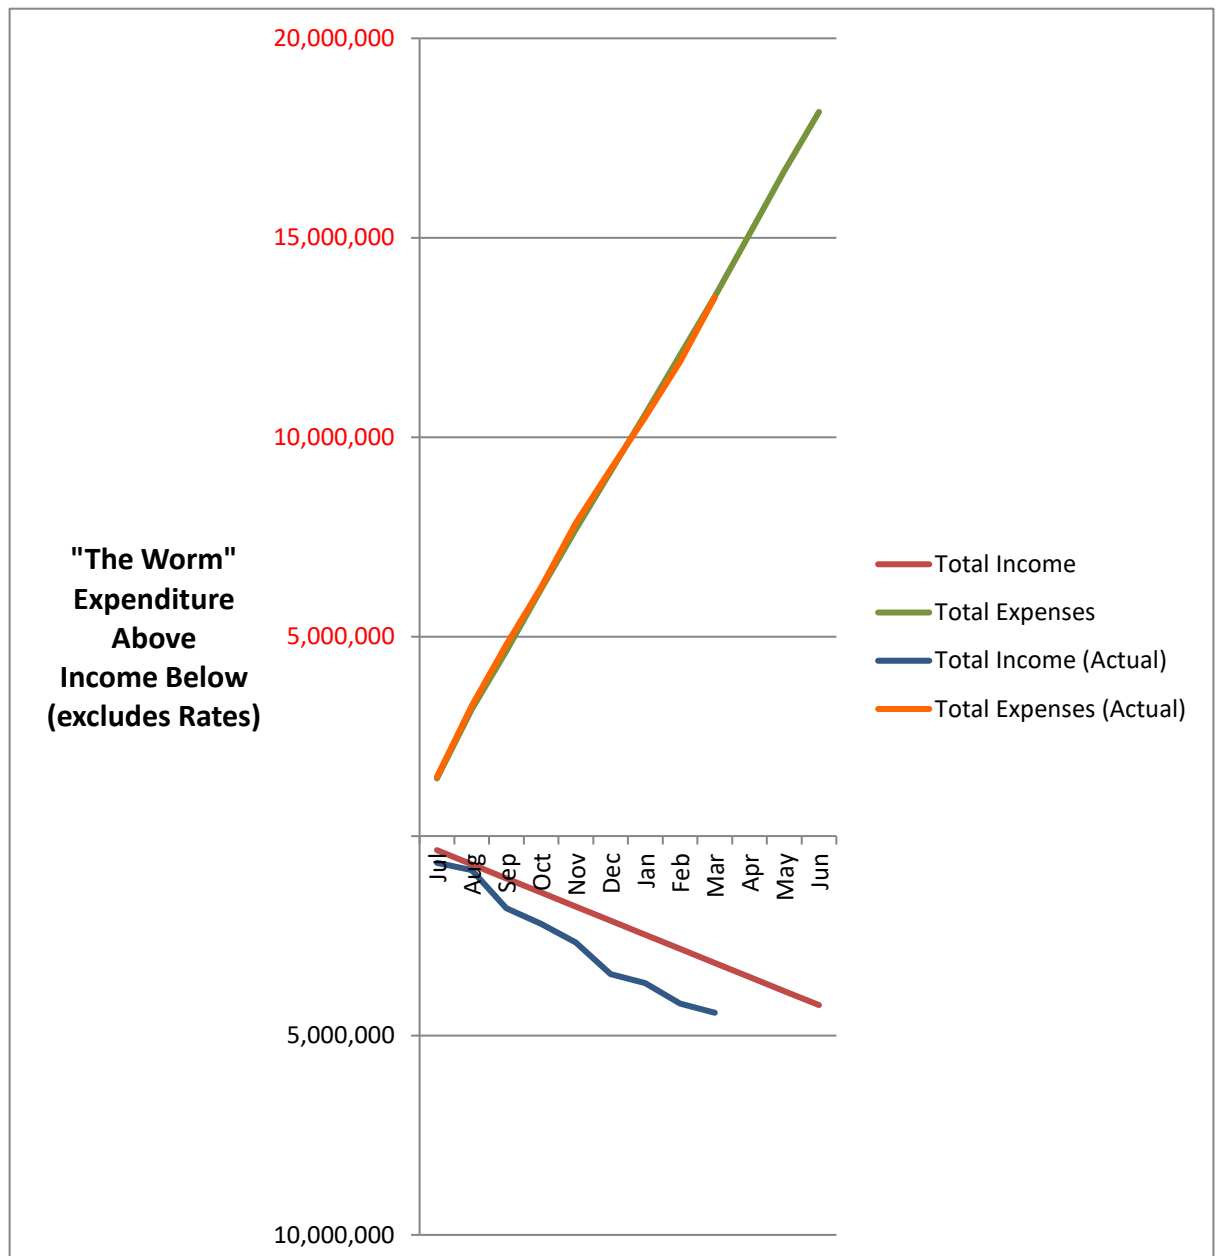

These statements include variances from budgets as approved in the Annual Plan and as amended by Council or by the Chief Executive under delegated authority. The audited financial statements published at year-end will show only the budgets from the Annual Plan, as required by statute.

Most budgets have been phased across months within the year by dividing by 12. The most significant exceptions are wages, which are based on payrolls per month, and grant expenditure, which is based on likely month of spend.

OVERALL RESULTS

Overall, the council has recorded an operating surplus of \$2,057,000 for the nine months to 31 March 2021. This compares with the budgeted surplus of \$82,000 providing a favourable variance of \$1,974,000.

As illustrated below, Council is tracking close to expectation in expenditure, and ahead of budget in income.

The Table on the following page sets out the detail of the expenditure and revenues for the period. To date operating expenditure is 76% of budget, whereas revenue is 126% of budget.

SIGNIFICANT ACTIVITY VARIANCES

As the table indicates, we are generally pleased with financial performance to date, with expenditure being generally on track, and revenues ahead of budget.

Roads and footpaths expenditure are a bit ahead of budget reflecting more activity than budgeted for this time of year. Community services expenditure is ahead of budget, this is due mainly to community grants paid out ahead of the budgeted six-month activity – driven mainly by the \$250K MSD grant received.

Resource management and planning expenditure is also ahead of budget due to the volume of processing that need to be outsourced. This overspend is recovered and is included in the fee and charge revenue, which is also well ahead of budget.

The other expenditure variances are related to seasonal workflows.

Overall, our view based on the half year data, is that operationally we will meet budget. The impact of the government grants will result in a full year positive revenue variance (this will largely be offset by expenditure negative variance).

5. OPERATING INCOME

Generally, revenue is well above budget. There are two overall reasons for this.

Firstly, unbudgeted Government grants have been received, and secondly economic activity is well ahead of (what everyone) forecast.

Fees and charges revenue are ahead of budget for building consenting, trade waste, general waste.

Recoveries income is made up of the on charged salary and other costs recovered from MDC and SWDC.

Grants and subsidies positive variance results from the unbudgeted DIA Grant (\$920K); MSD Youth development grant (\$250K); and Gladstone PGF grant (\$67K).

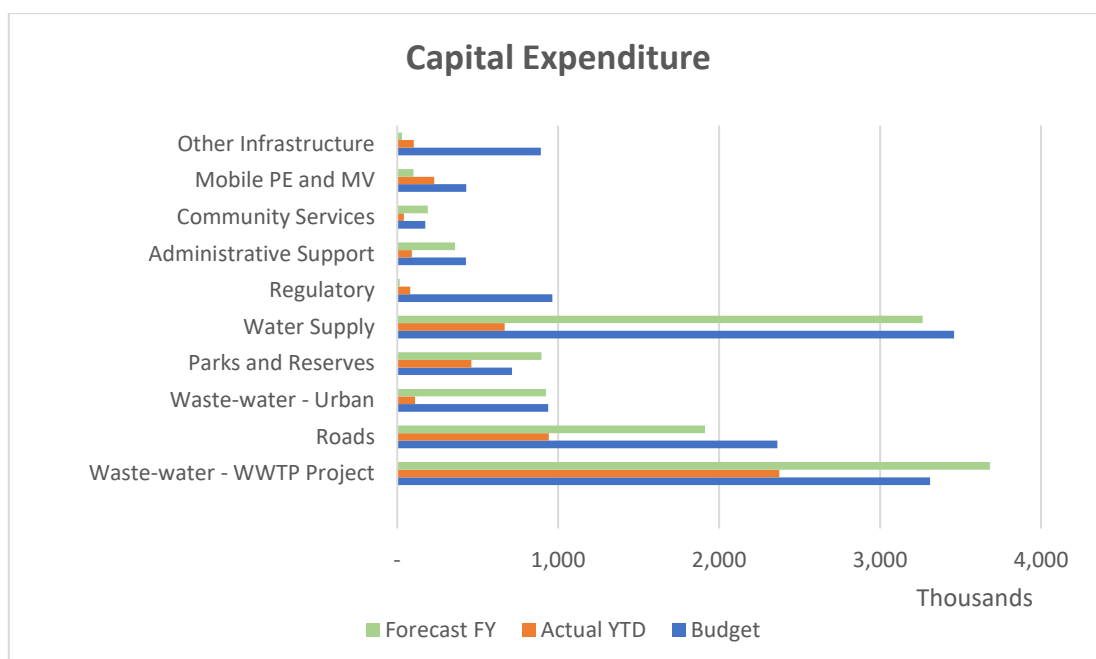

Development contributions are also well ahead of budget, again reflecting the current strong economic conditions and increased development.

6. CAPITAL EXPENDITURE

Capital expenditure for the year-to-date was \$5,099,000.

The full-year budget in the Annual Plan for 2020/21 is \$7,448,000 and Council approved \$4,412,000 brought forward from 2019/20. Additionally, there has been a further \$1,840,000 funding through DIA agreed by Government for 3 waters projects to be completed over the next 12-18 months.

Therefore, capital for the 2020/21 year totals \$13,700,000, however we expect some carry-over to 2021/22, including approximately \$3m for the WWTP, \$1.3m for water tanks (to be spent by September 2021), \$0.5m for water feasibility study and \$0.5m waste water pipe (to be spent by March 2022).

7. BALANCE SHEET AND CASH FLOWS

Working capital (current assets less current liabilities) of \$7,849,000, a measure of liquidity, is reduced by \$29,000 from that held at the beginning of the financial year. Broken down, this reflects a 11 percent increase in cash and term deposits, a 27 percent decrease in creditors, a 33 percent reduction to employee entitlements and an 83 percent decrease in debtors. Generally, we expect debtors to decrease from the start of the year because of the timing of invoices for dog registrations and water rates. Also, the GST receivable at year open has subsequently been received. In effect an anticipated result.

Generally, operating cash flows have mirrored the income and expenditure results, and the impact of significant increases or decreases in debtors or creditors.

Currently the council has thirteen term loans held with the Bank of New Zealand totalling \$7,270,000 and five finance leases that will be fully repaid in April 2021.

UNBUDGETED EXPENDITURE

Additional expenditure beyond the budget can be approved by council. To date, Council has approved the following unbudgeted expenditure:

- the carry-forward of the 2019/20 unspent capital (\$4,412,000).
- on projects qualifying under the 3 Waters Stimulus package amounting to \$1,840,000.
- to enable freedom camping at appropriately equipped rural reserves over the 2020/21 summer period under a recreation initiative amounting to \$67,000.
- on additional YETE activity co-ordinated through REAP; \$200,000 has been paid to REAP for this activity with the balance covering associated Council activity, all funded from \$250,000 received from MSD.
- co-funding up to \$50,000 for the proposed aerial hydrogeology survey of all the Ruamāhanga groundwater zones.

Other than the above, no other unbudgeted expenditure this year-to-date has been submitted for approval by the council, or previously approved by the Chief Executive under delegated authority.
