

Rehabilitation road works on High Street, Carterton

We would like to advise you of roadworks on SH2 High Street, Carterton, near your property or business, weather permitting.

Please note dates may change at short notice due to weather or other impacts on our week's schedule.

Please sign up for updates on our webpage nzta.govt.nz/wta or email customer@wta.nzta.govt.nz

The upcoming week's schedule is posted Friday on journeys.nzta.govt.nz/wellington/road-works

Details

WHERE: SH2 High Street, Carterton, between Rhodes Street and south of Andersons Line

DATES: Planned to start 3rd June for around 5 weeks. **Please note there could be delays with the start date.**

TIME: Day and night, 24/7

WHAT: The road is at a stage where a full rehabilitation and reconstruction is needed. This means our crews will need to fully excavate the sections being repaired and build an entirely new road from the base up.

We need to carry out the works during the day and at night in order to get this work done as quickly as possible. Once completed, the works will significantly strengthen State Highway 2 High Street, making it more resilient and safer for all road users.

Approximate order of works

We will be working in sections to avoid larger disruption. The approximate schedule is:

- **Rhodes Street to Kent Street** – we'll do the northbound side, followed by southbound side. This should take approximately 2-3 weeks.
- **Kent Street to south of Andersons Line** – we'll do the northbound side, followed by southbound side. This should take approximately 2-3 weeks.

Impact on residents and businesses

While we aim to work with as little disruption as possible, we know roadworks can be inconvenient for residents. The crew will keep the noise down as much as possible. However, machinery is unavoidably noisy.

Rhodes Street to south of Andersons Line residents

When the works is happening outside residents and businesses, there will be no access available for private vehicles to properties for up to 5 days and nights. Due to the extensive works, it is unsafe for vehicles to drive over the road and through the works. We will manage access for residents and businesses if there is an emergency. Pedestrian access to properties is available and the footpath will be open. When access is unavailable due to works, vehicles will need to park down the road or down the side streets nearby.

If you are elderly, have a disability or mobility issues, please contact us so we are aware in advance to support where possible.

Please email us on customer@wta.nzta.govt.nz or phone our **Project Manager on 027 2082619** to let us know.

Somerset Road/Carters Line/Park Road residents

Residents on these roads will notice heavier than usual traffic going past their houses because this is the main detour route for around 5 weeks.

Location of roadworks

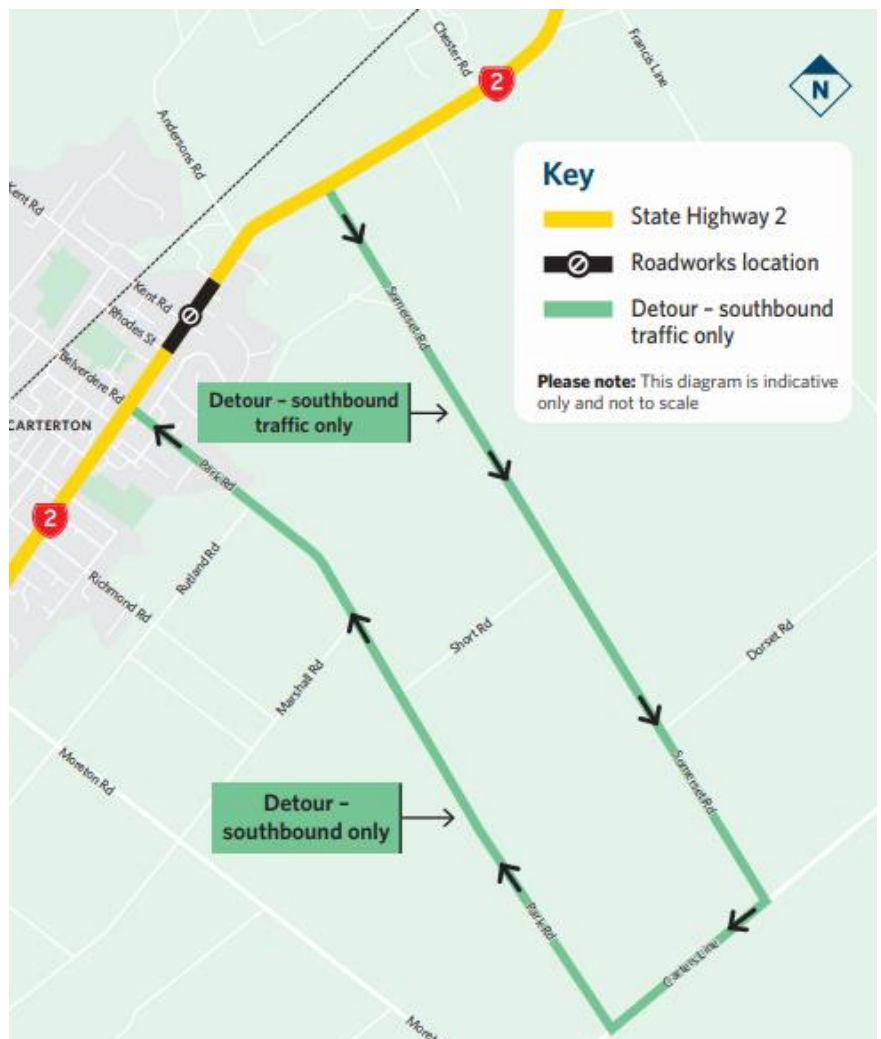

The works will be between Rhodes Street, and south of Andersons Line as shown in the map to the right. All residents and businesses who are located in this area will have access restrictions up to 5 days. This includes 222 – 282 High Street North and 229 – 281 High Street North and Plimsoll Street.

Detours for vehicles driving south

For the duration of the works, all vehicles who are travelling south will need to take the detour via Somerset Road, Carters Line and Park Road – see map to the right. In good traffic, this adds around 8 minutes to journey times.

Vehicles heading north can drive through High Street with speed restrictions in place.

Thank you

Thank you for your patience while we make These road safety improvements in your community.
